### **DETAILED ACTION**

The following action is in response to the amendment filed for application 10/085,553 on August 31, 2004.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Woods on September 22, 2004.

The application has been amended as follows:

In Claim 12:

on line 14, after the second instance of "the first control", --signal to one of the first and second governor as a function-- has been inserted.

on line 21, before "vehicle," --transmit the first signal to the first governor as a function of the-- has been inserted.

### ***Allowable Subject Matter***

Claims 1-2, 4-15, and 17-23 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the apparatus for processing a signal in a moveable vehicle having an engine as claimed, and particularly including a first sensor operable to determine a first characteristic of the vehicle indicative of whether the vehicle is in motion, and to transmit a

first selecting signal as a function of the first characteristic; wherein the governor is operable to at least one of: transmitting the first signal to the first governor as a function of the vehicle being in motion and to transmit the throttle signal to transmit the first control signal to the second governor as a function of the vehicle not being in motion; and transmit the first governor signal as a function of the vehicle being in motion and to transmit the second governor signal as a function of the vehicle not being in motion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### *Conclusion*

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Lukich, Barnes, Kramer and Tanaka have been cited to show similar governor controls.
